## OUR STORY

Olympic Wholesale, we have been distributing food ingredients and supplies to the baking and food industry for over 45 years. We provide premium distribution services to everyone from artisan to industrial baking and food manufacturing facilities and retail grocery chains across Canada and the United States.

Our family-based company, originally founded as a manufacturer of preserves, has grown and evolved into an extensive wholesale distributor. This has allowed us to acquire decades of knowledge and expand into the development of our own lines of retail food products.

We currently distribute over 4000 listed products from leading brands as well as our own private label brands: Olympic, Tasty, Bakers, and Pure Food Products.

We will continue to rely on our strength in adapting to the changing market and take pride in our ability to tailor inventories to meet specific customer requirements. Olympic Wholesale is committed to serving all our customers with high quality and reliable service to ensure their individual needs are met.
